### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Claims 10-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on 6/24/2004.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Alvarado et al. (6,530,950).

Alvarado et al disclose in fig. 3c, a stent system for implantation in a body lumen including: a stent (10), at least one band (42) circumferentially wrapped around the stent, the width of the band is substantially less than the diameter of the stent, where the band further comprises a polymer containing a therapeutic agent (see col. 12, lines 53-65), and the band is elastically capable of gripping the stent. The therapeutic agent is selected from the group consisting of pharmaceutical agents, bioactive agents (i.e., the therapeutic agent is selected from the group consisting of antiplatelet agents {see col. 14, lines 7-16}).

Regarding claims 4-6, Alvarado et al disclose the polymer is selected from the group consisting of a polymer mixture, a biomolecular polymer or silicones (see col. 13, lines 43-66).

Art Unit: 3731

Regarding claims 7-8, Alvarado et al disclose the stent system further comprises a plurality of bands (40, 42, 46), and where the plurality of bands contain different therapeutic agents and the plurality of bands are made of different polymers (see col. 14, lines 1-25).

Regarding claim 9, note that Alvarado et al disclose in fig. 3, the band further comprises a first layer (42a) and a second layer (42b), where they are located circumferentially around the stent.

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
